

SOCIAL MEDIA DIALOGUE—FAKE NEWS

DAILY REPORT – DAY 1

Saturday, 17th February 2024

The day went according to the program. After breakfast at 10:00, the activities started at the mayor's hall with energizers and name games, so we could get to know each other more and start the main session. After the coffee break with some ice breakers, we played the dance circle where one of us left the room and we decided on a leader that started dancing and then the person that left the room came back and tried to find who is the leader of the dance circle.

After lunch, we talked about our fears, expectations, and contributions in the following days. Then we played the game secret friend.

After the last coffee break, we had a session about our countries and the reality in our communities about fake news and how they are spread.

After dinner, we had the welcoming night where Anastasia explained more about the project. We exchanged mugs and received our reusable cups for the next few days.
