

## **SOCIAL INNOVATIVE ENTREPRENEURSHIP**

### **DAILY REPORT – DAY 3**

*Sunday, 4<sup>th</sup> February 2024*

After breakfast, we went to the room at Mayor's Hall for our morning session. We started our morning session with an Introduction to social innovation concepts and case studies. After that, we had some group discussions on potential social entrepreneurship ideas. The group discussions were followed by brainstorming sessions to refine project ideas.

After the first coffee break, we went to the main square to do some team-building activities to strengthen the collaboration between us.

After lunch, we come back to the major's hall for our evening session. We had a brainstorming activity by providing ideas about types of economic descension. Finally, we wrote down our conclusions regarding this subject.

The night closed with the North Macedonian culture night with plenty of games food and dances. It was fun!
