

SOCIAL INNOVATIVE ENTREPRENEURSHIP

DAILY REPORT – DAY 9

Saturday, 10th February 2024

After breakfast, we went to the room at Mayor's Hall for our morning session. We started the day with energizers and later we had some workshops on sustainable business practices and impact assessment.

After the first coffee break, we continued with group discussions on integrating sustainability into project strategies.

After lunch, we met at the beach, and we had some games and team-building activities. In the evening, we had the closing ceremony where we presented our final projects and ideas. Anastasia, the facilitator prepared some questions and we had to answer them based on the preparations that we made.

The night closed with the Greek night, and we learned how to dance, to drink, and eat as a Greek.
