During the Youth Exchange leaders will coordinate workshops led by participants.

This project was created with the vision that through creativity and social solidarity young people will find the way to fulfill their dreams and at the same time develop important skills, abilities and knowledge. Social entrepreneurship can offer young people a way to explore their quest to develop useful skills for sustainable employment. Through social entrepreneurship young people can harness their talents and skills. They will support individual development and efforts to make changes at a personal and social level and support other elements of youth development such as active participation.
