DATE: 18-21 JANUARY 2024

INFOPACK

TRAVELLING
Digitalization

- Please read carefully all the important information regarding the APV Meeting “Travelling Digitalization”.
 - Place: Nea Kallikratia, Halkidiki Region, Greece

ABOUT THE PROJECT

TRAVELLING
Digitalization

- The project includes 2 activities: the APV and the Youth Exchange.
- The APV will be organized in order to ensure a well-prepared Youth Exchange for all involved participants and to share duties and responsibilities among youth leaders as well as to prepare all involved local stakeholders and activists for meeting our young people during the exchange. The APV will increase skills and knowledge of youth leaders regarding planning the activities and taking responsibility for the action as well as it will connect them together which will ensure better communication and collaboration during the exchange.
- The Youth Exchange is the main activity of the project for young people coming from 8 European countries that share common concerns and goals. The project aims to the active participation of young people in order to improve the future and increase their opportunities. The Youth Exchange meets the objectives of the project by giving the opportunity for young people to spend time in intercultural environment, get connected and active on local, national and international level as well as become more aware of different cultures, traditions and attitudes of young people coming from different countries.

TRAVELLING DIGITALIGATION – YOUTH EXCHANGE

TRAVELLING
Digitalization

The Youth Exchange will be held in Nea Kallikratia, Halkidiki Region, Greece.

In this Youth Exchange will take part 49 participants coming from 8 countries and 1 project coordinator from the hosting organization.

During the Youth Exchange leaders will coordinate workshops led by participants.

The topic of the project relates to the promotion of digital tools in travelling. During the the project a handbook will be created to promote sustainable practices in mobility and in the technology sector. The participants will have the opportunity to design digital tourism applications for mobile phones, which will contain digital tourist maps and tourist guides etc. The young participants of this project will upscale their digital skills and competences. Also, the project promotes the digital youth work and the changes that have been achieved in this sector. Participants will have the opportunity to share their knowledge with their local communities in their countries. After all, through this project, participants will be motivated to use the internet to promote tourism and sustainable tourism applications. This project also will help them with their future professional plans.

Participants will also develop skills and experience in social campaigning. This is relevant skill nowadays for young people since it helps to break up barriers for public performance, public speaking, group and team work, leading and planning, debriefing and evaluating results.

Besides this, participants will also have an international experience, get to know other cultures and traditions better, break stereotypes and promote common understanding, multicultural dialogue and activism of young people on local, regional, national and international level.

YOUTH LEADERS' PROFILE

TRAVELLING
