# ABOUT THE PROJECT

SOCIAL INNOVATIVE  
ENTREPRENEURSHIP

- The project includes 2 activities: the APV and the Youth Exchange.
- The APV was organized in order to ensure a well-prepared Youth Exchange for all involved participants and to share duties and responsibilities among youth leaders as well as to prepare all involved local stakeholders and activists for meeting our young people during the exchange. The APV had as result to increase skills and knowledge of youth leaders regarding planning the activities and taking responsibility for the action as well as it will connect them together which will ensure better communication and collaboration during the exchange.
- The **Youth Exchange** is the main activity of the project for young people coming from 6 European countries that share common concerns and goals. The project aims to the active participation of young people in order to improve the future and increase their opportunities. The Youth Exchange meets the objectives of the project by giving the opportunity for young people to spend time in intercultural environment, get connected and active on local, national and international level as well as become more aware of different cultures, traditions and attitudes of young people coming from different countries.

# SOCIAL INNOVATIVE ENTREPRENEURSHIP – YOUTH EXCHANGE

SOCIAL INNOVATIVE  
ENTREPRENEURSHIP

The Youth Exchange will be held in Nea Kallikratia, Halkidiki Region, Greece.

In this Youth Exchange will take part **48 participants** coming from **6 countries** .

During the Youth Exchange leaders will coordinate workshops led by participants.

This project was created with the vision that through creativity and social solidarity young people will find the way to fulfill their dreams and at the same time develop important skills, abilities and knowledge. Social entrepreneurship can offer young people a way to explore their quest to develop useful skills for sustainable employment. Through social entrepreneurship young people can harness their talents and skills. They will support individual development and efforts to make changes at a personal and social level and support other elements of youth development such as active participation. With a lot of care, we created this project with the primary goal of meeting the expectations, needs and goals of the young people and the organizations they represent.

Participants will also develop skills and experience in social campaigning. This is a relevant skill nowadays for young people since it helps to break up barriers for public performance, public speaking, group and teamwork, leading and planning, debriefing and evaluating results.

Besides this, participants will also have an international experience, get to know other cultures and traditions better, break stereotypes and promote common understanding, multicultural dialogue and activism of young people on local, regional, national and international level.
